STRATEGIES TO RETAIN YOUR TEAM

You'll never be able to get on with building your business if you can't hold onto your staff. Consider this: If you can get your staff to stay 6 months longer, your turnover rate drops by 50%. That's 50% fewer staff you have to find, train and develop. This module will provide you with the proven strategies used by the most successful retailers to retain the talent they need.

1:00PM

YOUR STORE STANDARDS: LIVING UP TO THEM EVERY DAY

The frustrating reality for most every retailer is that compliance on standards in their stores is far below what's expected. This results in lost sales, lost margin, higher staff turnover rates, more customer complaints and more stress. It doesn't have to be this way.

- Learn why a score of 10/10 on standards is the only acceptable result
- Discover the simple, but effective approach to getting everyone on your team to live up to your standards

2:00PM

DEALING WITH PERFORMANCE PROBLEMS

When performance doesn't meet expectations, or behaviours are outside the acceptable 'lines', it's up to the Manager to resolve these issues immediately and effectively. Late arriving staff, out of uniform, not waiting on customers, poor sales results and more all result in exceedingly high stress levels for retail managers. In this module you'll learn how to confidently and effectively deal with these challenges and more. Performance coaching is an essential skill for every manager ... and you'll walk away from this module know exactly how to tackle every challenge you face.

3:45

STRATEGIES TO DRIVE YOUR MOST IMPORTANT METRICS

In this module participants will roll up their sleeves and work together to build out not just ideas on how to improve most every key sales metrics, but also create action plans that will work to drive the results. You'll walk away with a toolkit of ideas to implement in your store.

PLUS: The 30-DAY Average Sale Challenge! Everyone will leave with a plan, and a challenge, to increase their Average Sale by at least 10% in the next 30 days. It's possible, and they'll achieve it!
