Get Compliance ... Or Get Out of the Game!

It's shocking! The lack of compliance on basic store standards is ruining the shopping experience for your customers. It's also costing you thousands of dollars each year in lost sales, higher employee turnover rates and added expenses. It doesn't have to be that way.

Yes, this keynote will shake your audience by the lapels at times, but if you're suffering from non-compliance, it's time they wake up! Your team will be given a straightforward plan that will help them gain the compliance they need on standards. While achieving compliance on standards is a tactical matter, the truth is that having the right mindset is far more critical in determining whether or not you'll get compliance or not.

Get ready to get better performance.

Get it Right ... Executing your Plans Flawlessly

Welcome to the 'plague' for most retailers and suppliers alike ... executing those brilliant plans that get launched every month. When it comes to working together it can often seem like an "us vs. them" scenario. Whether it's a supplier 'battling' the retailer or the merchandising department 'wrestling' store operations, this often becomes an exercise in frustration that leads to poorly executed plans. It doesn't have to be this way.

Here's some of what we'll share with you:

- 7 key things you need to put in place to succeed at executing your plans every time
- Identifying the most common reasons why plans fail ... from the side of the front line, supplier or internal department
- A Store Manager's "Wish List" for those designing plans that they need to execute.

You'll leave with greater confidence in your ability to execute plans and with a game plan for ensuring you can implement them flawlessly, every time.

Get ready to get it right.
